## CHANGI ROBOMASTER CHALLENGE: Be Champions of the World's Smartest Airport!

28 MAY - 26 JUN (every Thu - Sun, 2 - 5PM)

\$79 per Child

Is your child or teen fascinated by the world of robots, programming and artificial intelligence? In this exciting and educational workshop, get a glimpse into how robotics and artificial intelligence is part of Changi Airport's mission to be not just the world's best, but smartest airport! In this 3h session, participants will get to enjoy an educational and hands-on learning experience on how to programme and autonomously operate the DJI RoboMaster – the revolutionary intelligent robot used in the world's most acclaimed and advanced robotics competition.

## "A DAY IN THE LIFE OF A CHANGI TROLLEY" Design Thinking Workshop for Kids

28 MAY - 25 JUN (every Thu - Sat, 1.30 - 3PM)

\$40 per Child

Dive into the world of design thinking in this highly creative educational workshop, "A Day in the Life of a Changi Trolley", which will hone your child's creative problem-solving skills! Through fun interactive activities, young minds will learn the key elements of design thinking – from empathising with users to identifying their needs and defining the problem statement... letting their imagination run wild with ideas... to creating prototypes of the airport of the future might look like! The best part is, they will be having fun while learning how to create user-centric solutions, and acquiring valuable mindsets that will help them in their growth journey.
